COUNCIL CHARGING FOR SAFETY INFORMATION SCANDAL

I am shocked to learn that Shropshire Council charges the public for information about air quality and road safety.

When a Green Party member tried to find the air quality readings from the air pollution monitoring station at Chester Street (near the railway station) he was faced with a charge of £67.75 per hour. Previously the readings were available free from the Borough Council website. See for yourself: search 'Shropshire Environmental Information Request'.

It is equally shocking that you will be charged to find out about the number of road deaths in the area.

I demand that these charges on information are dropped immediately. Neighbouring councils make this information available freely. You have a right to know how safe the air you breathe is. And you have a right to know how safe your roads are. I will be campaigning to make this information freely available via the Council website.

NEW STREET BLUES

Right now some of our neighbours are struggling daily with the danger of fast travelling two-way traffic on New Street, the area's narrowest main road.

I commit to campaigning for an immediate 20 mph limit from Copthorne Road to past the Boat House. I will ask for an early meeting with Council officials to look at long term solutions, including a one-way system, to make this road safer.

Air pollution is also a concern shared by many people in the area. I have worked with a local resident to install an air quality monitoring tube on the Frankwell end of New Street, the narrowest section of the road.

Meanwhile, the existing monitoring tube on Copthorne Rd near the Barracks thankfully showed acceptable air quality.

"Julian does so much for our community" Heather, Copthorne Rd

20'S PLENTY!

20 mile an hour speed limits in residential areas have been proved to improve safety, air quality and reduce noise pollution.

As a Green Councillor I will fight for 20 mph residential speed limits to become the standard in Shropshire.

# ONLY JULIAN HAS WORKED HARD HERE ALL YEAR

Green Councillor Duncan Kerr (Oswestry South)

## GREENS CAN WIN IN SHROPSHIRE

GREEN COUNCILLOR DUNCAN KERR (OSWESTRY SOUTH) HAS ALREADY BEEN WORKING HARD FOR THE PEOPLE OF SHROPSHIRE.

"AS SHROPSHIRE'S FIRST GREEN COUNCILLOR, I AM LOOKING FORWARD TO WELCOMING JULIAN ONTO THE COUNCIL WITH ME TO HELP MAKE A REAL DIFFERENCE FOR THE PEOPLE OF OUR COUNTY"

"It was great to have a big workforce to really get on top of the litter in the area and make a great part of our town even more attractive" - Mark

## NHS - STAFF NEED OUR SUPPORT TOO

Health bosses plan to press ahead with the night time closure of the A&E in Telford, on top of other cuts across the board. The pressures on health staff are unacceptable. With so many health workers living in this area I want to see how we can give support locally. **Watch out for news on this.**

The Council has a duty to do everything in its powers to defend health care. It's been good to see Telford Council's leader supporting care across the county. Uniting all our representatives to fight for fair funding is essential. Green Councillors will work with anyone to make this happen. Council funding for a range of **public health** and patient support programmes must be kept up.

## LITTER PICKERS KEEP PORTHILL CLEAN

On Sunday 2<sup>nd</sup> April I joined eight other Porthill Greens supporters and local resident Mark to clear up the area around Mountfields playing fields. Armed with litter pickers and black bags, we shifted 10 bin bags full of rubbish before retiring to the Buck's Head Inn for a well earned drink!

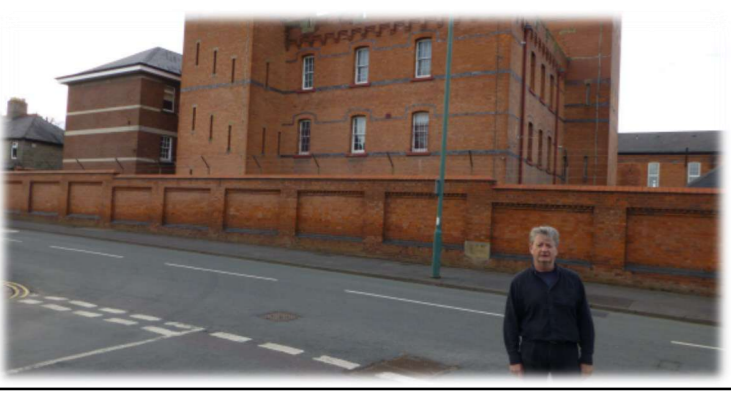

## A BARRACKS DEVELOPMENT FOR ALL

The Green Party agrees with many of the objections to the current MOD plans raised by the Light Infantry Veterans.

The MOD is trying to make a quick profit by filling the site with expensive houses. I agree with local veterans that the site could be much better suited to mixed use: keeping some playing fields, adding small businesses and including affordable and social housing. Some of these could be kept for our veterans in need of a home.

I also support the Veterans' idea for a 'Hub' that provides mental health and welfare support to ex-service personnel.

If elected, I will meet with locals and veterans to talk about how the barracks development can work better for the Porthill community. Now is the time to get a good outline plan that will stick.

## QUARRY POOL: WE ARE NOT GIVING UP

Shropshire Labour Group Leader Alan Mosley says, "Shropshire Council is moving the baths to Sundorne no matter what we say". We believe that the fight must go on. Shropshire Council are ignoring the 68% of those who answered the consultation who support keeping the pool in the Quarry.

**Ben's story** Ben goes twice a week by bus to the Quarry gym with Luke, his support assistant. Luke's time with Ben is limited. If they had to use two buses to get to Sundorne this would mean going much less often. The Quarry gym is an important part of Ben's life. Like Ben, many people use the Quarry Centre because it's so accessible.

We are not giving up.

"Julian gives a voice to all the environmental and social values that I believe in." Genevieve, Frankwell

## WEST MIDS GREENS BACK JULIAN TO WIN

On Saturday 25<sup>th</sup> March Green Party supporters from all over the West Midlands came to back my campaign in Porthill. Importantly, our regional party only provide this resource if they think we can win! I was very pleased by the response we received, with lots of you giving me and the Green Party your 100% backing on the doorstep.

At the end of a great afternoon, we finished the day off at In Good Hands café in Frankwell. We sampled the wonderful coffee and cake and enjoyed the musical talents of some of our supporters!
